Infectious Disease Courses and Postgraduate Diploma Programme 2008–2010

Infectious disease update

Saturday 18-4-2009

0800–0900	Registration	
0900–0930	Infectious disease emergencies: a real entity	KY Yuen
0930–1000	Procalcitonin and sepsis	SKP Lau
1000–1015	Questions and answers	
1015–1030	Tea break	
1030–1100	Mycotic aneurysm and infected vascular prostheses	CW Ting
1100–1130	Neurogenic fever	KY Yuen
1130–1200	Recurrent cellulitis and lymphoedema	PCY Woo
1200–1215	Questions and answers	
1215–1315	Lunch	
1315–1345	Intravascular catheter-related infections and antibiotic lock therapy	VCC Cheng
1345–1415	Antimicrobial-impregnated device and indwelling device infections	SSY Wong
1415–1430	Questions and answers	
1430–1445	Tea break	
1445–1515	Wound infection as a surgical emergency: myiasis	SSY Wong
1515–1545	What is new about <i>Clostridium difficile</i> infection in Hong Kong	VCC Cheng
1545–1615	Pet-related infections	SSY Wong
1615–1630	Questions and answers	

2

Sunday 19-4-2009

0900–0930	Registration	
0930–1000	Intracranial abscesses and infections of neurosurgical shunts and drains	YW Fan
1000–1030	Spinal epidural abscess: an oft-delayed diagnosis	YW Wong
1030–1045	Questions and answers	
1045–1100	Tea break	
1100–1130	EV71 in Hong Kong, Taiwan, Mainland China, and Singapore: policy and controversy	HF Tsang
1130–1200	Infective complications in intravenous drug abusers	BSF Tang
1200–1230	Infective complications of monoclonal antibody therapeutics	PL Ho
1230–1245	Questions and answers	
1245–1345	Lunch	
1345–1415	A to Z of antibiotics	KY Yuen
1415–1445	Colonization resistance: relevance to antimicrobial treatment regimens	VCC Cheng
1445–1500	Questions and answers	
1500–1515	Tea break	
1515–1545	Quantitative cultures in infectious disease	SKP Lau
1545–1615	Antibacterial stockpiling for pandemic influenza	PL Ho
1615–1630	Questions and answers	
1630–1700	Quiz	

18–19 April, 2009
