Emergency Management of Severe Burns

The Emergency Management of Severe Burns (EMSB) course is designed to teach the diagnosis and management of severe burns in the first 24 hours after injury. It will teach the concepts of primary and secondary survey and specific areas that you will need to know will include the following:

1. Protection and maintenance of the airway.
2. Removal of constricting clothing and jewellery.
3. Calculation of the correct percentage of burn.
4. Initiation of appropriate intravenous fluid resuscitation.
5. Identification of cases requiring an indwelling urinary catheter.
6. Identification of cases requiring transfer to a burns unit.
7. Assessment of the adequacy of circulation.
8. Description of escharotomy.
9. Identification of the need for fasciotomy in an electrical burn.
10. Correctly conduct a head to toe survey and identify associated injuries.
11. Identify appropriate laboratory tests.

It is open to medical, nursing, and allied health personnel, and it is recognised that participants will be drawn from a variety of backgrounds.

The course concludes with an assessment. On successful completion, the candidate will receive an official certificate from ANZBA.

Date: Class A : 14 May 2012

Class B : 15 May 2012

Time: 0800 - 1800

Venue: A&E Training Centre

3/F, Tang Shiu Kin Hospital, Wan chai, HK

Faculty:

International : Professor Peter Maitz,

Dr Robert Whitfield,

Richard Wong She, Andy Ives

Local : Professor Andrew Burd,

Dr Wong Yau Tak,

Dr Ben Wan Kuang An,

Dr Ben Young,

Dr Leung Mei Yee, Dr Josephine Mak,

Dr Wong Pauline, Lam Chui Wing

Certificate: EMBS Provider Certificate

Language: English

CME, CNE & CPD: pending approval

Course Fee: HK \$1000 (included course manual)
