Certificate In Infection Control

The purpose of this course is to provide knowledge and practical experience in infection control measures, through an interactive and problem-solving approach in learning, for clinicians, nurses, and other healthcare workers who are interested or actively involved in the daily management of hospital infection control.

A series of SIX modules will be organized as follows:

Importance of Infection Control I (23-24 Nov 2013*)

- Structure, Science and Outlook

Importance of Infection Control II (12-13 Apr 2014*)

- Emergence of Multiple Drug Resistant Organisms

Infection Control in Practice I (7-8 Jul 2012)

- Nosocomial Infections Prevention and Control

Infection Control in Practice II (24-25 Nov 2012)

- Prevention and Control of Infections in Special Patient Population

Advancing Infection Control I (13-14 Apr 2013*)

- Understanding of Infections related to Hospital Support Services

Advancing Infection Control II (13-14 Jul 2013*)

- Emergency Infectious Diseases and Future Challenges

* Tentative

Candidates are required to attend and complete all the six modules and perform satisfactorily in all the course assessments.

Candidates who attained the highest total score in all the course assessments will be awarded with Mr Lui Hac Minh Prize for Infection Control.

Fees: HK\$5,400 / HK\$4,800* / HK\$3,000#

Alternatively, those who are interested in particular module(s) may take individual module at a rate of HK\$1,000 / HK\$800* / HK\$500#.

(* for Nursing Alumni and Honorary Tutors of the School of Nursing, HKU)
(# for current part-time students/ staff of the School of Nursing, HKU)

Online Registration <http://www.hku.hk/nursing>
