ACCP Board Review.

The Proven Leader in Comprehensive Board Review.

Prepare yourself for the board certification examination with the most comprehensive review programs available from the ACCP, the proven leader in board review curriculum for more than 30 years. World-renowned clinicians develop exam-focused review courses, premier literature reviews, and top-selling self-study materials. Technology and assessment tools are used, when appropriate, to help you measure your strengths and learning requirements.

Whether you need to certify or recertify, this unique program offers a thorough, effective board study plan you can put to the test with confidence.

Only the ACCP offers you:

- **A board-exam-focused curriculum** emphasizing the same content areas as the ABIM. Presentations include lectures, self-assessment opportunities, and smaller tutorial sessions focusing on key topics in critical care medicine.
- **Assessment tools** to measure your exam readiness and guide your study preparation. A personal knowledge assessment will be conducted prior to the course to help you determine your knowledge strengths and learning needs.
- **More review opportunity for your money**—Five full days of review sessions and professional take-home materials, including a comprehensive syllabus and the course slide set, so you can reference study material as needed.
- **Valuable education add-ons** included with the curriculum. You have the opportunity to complete the critical care medicine and pulmonary disease ABIM Self-Evaluation Process programs and attend either Mechanical Ventilation or Lung Pathology. See details within this brochure.
- **A friendly learning environment**, featuring smaller breakout sessions, so you can network with the faculty and address your specific questions.

ACCP CRITICAL CARE MEDICINE BOARD REVIEW COURSE 2008 ATTENDEE

a program with purpose

Rely on the ACCP Critical Care Medicine Board Review 2009 to prepare for the American Board of Internal Medicine (ABIM) Critical Care Medicine Certification Examination. Designed as the best preparation for anyone taking the exam, this comprehensive, exam-focused review will cover current critical care literature and management strategies for critically ill patients.

The ABIM Critical Care Medicine Certification Examination tests your knowledge and clinical judgment in crucial areas of critical care medicine. This premier course will review the information you should know for the exam. Course content mirrors the content of the exam, as outlined by the ABIM, and includes the following topics:

Pulmonary disease	22.5%
Cardiovascular disorders	17.5%
Renal/Endocrine/Metabolism	15%
Infectious disease	12.5%
Neurologic disorders	7.5%
Surgical/Trauma/Transplantation	7.5%
Gastrointestinal disorders	5%
Hematologic/Oncologic disorders	5%
Pharmacology/Toxicology	5%
Research/Administration/Ethics	2.5%
Total	100%

Target Audience

- Physicians in critical care and pulmonary medicine
- Physicians in emergency departments
- Physicians in anesthesiology
- Physicians in surgery
- Advanced critical care nurse practitioners
- Advanced respiratory therapy practitioners
- Physician assistants
- Pharmacists

This course will be a valuable educational experience for any health-care professionals in critical care and pulmonary medicine who can benefit from an all-inclusive review of critical care medicine.

Learning Objectives

- Assess your clinical knowledge of critical care medicine through pretest and posttest questions.
- Determine your knowledge strengths and areas requiring further review based on the critical care ABIM blueprint content.
- Prepare your self-assessment and study framework by reviewing the critical care medicine literature outlined in the syllabus and case studies.

the added advantage

OPTIONAL SESSIONS

Immediately following the ACCP Critical Care Medicine Board Review 2009, you can enhance your review by participating in additional optional education sessions.

TUITION FOR OPTIONAL SESSIONS

	On or Before 7/20/09	After 7/20/09	On-site
ABIM Critical Care Medicine SEP and Pulmonary Disease SEP (7509)	\$70	\$110	\$120
Mechanical Ventilation (7508)	\$70	\$110	\$120
Lung Pathology (7507)	\$70	\$110	\$120

Tuesday, August 25

ABIM SEP Program Module

**American Board of Internal Medicine: Critical Care
Medicine and Pulmonary Disease SEP Module**

Co-Chairs: Stephanie M. Levine, MD, FCCP; and
Mark J. Rosen, MD, FCCP

This session will review and complete the American Board of Internal Medicine (ABIM) Critical Care Medicine Self-Evaluation Process (SEP) Module A2-F and the ABIM Pulmonary Disease Self-Evaluation Process (SEP) Module A9-F. This is an excellent opportunity for anyone recertifying to review the ABIM material related to the critical care medicine or pulmonary disease subspecialties and earn recertification points from ABIM toward the Continuing Professional Development (CPD) program.

ABIM SEP Course Information

If you are certifying with ABIM for the first time, this session is designed to review questions developed by the ABIM. If you are recertifying, you can answer ABIM questions and submit your responses to the ABIM for the CPD program.

Each module includes 25 questions and will be administered through group discussion with experts and colleagues using an automated response system. At the end of the session, participants will have the option to mail their completed answer sheets to the ABIM for recertification credit. The modules will be available from ABIM, or you may obtain a copy on-site.

To be eligible for ABIM credit, you must:

- Be a Diplomat of the ABIM.
- Be enrolled in the ABIM CPD program.
- Not have completed either of the SEP Modules to be used for these sessions.

ABIM Diplomats may enroll in recertification at any time after the initial certification by contacting ABIM:

American Board of Internal Medicine
510 Walnut Street, Suite 1700
Philadelphia, PA 19106-3699
Phone: (215) 446-3500 or (800) 441-2246
Fax: (215) 446-2470
www.abim.org

For additional information about ABIM Maintenance of Certification and the ABIM subspecialty examinations, visit these pages on the ABIM Web site:

www.abim.org/moc/index.shtm
www.abim.org/cert/policies_aqccm.shtm
www.abim.org/cert/policies_sspulm.shtm
www.abim.org/cert/policies_sssleep.shtm

Learning objectives:

- Explore new diagnostic testing and therapeutic options.
- Prepare clinical decisions regarding the diagnosis and treatment of patient problems.
- Differentiate between the diagnostic and treatment options for common and unusual problems within the discipline.

Tuesday, August 25

Mechanical Ventilation

Co-Chairs: Neil R. MacIntyre, MD, FCCP; and
Suhail Raoof, MD, FCCP

This course will emphasize the use of graphic displays of airways mechanics to help clinicians optimize mechanical ventilation support for difficult-to-treat patients. Common problems, such as providing ventilation support for the patient with severe obstruction and COPD or the hypoxemic patient with ARDS, will be addressed. Evidence-based information will be highlighted during case management presentations and discussions.

Learning objectives:

- Examine the newer modes of mechanical ventilation support.
- Analyze pressure, volume, and flow waveforms to help improve the patient-ventilator interface.

Tuesday, August 25

Lung Pathology

Chair: Henry D. Tazelaar, MD, FCCP

This half-day course will offer a comprehensive review and update of pulmonary pathology, with an emphasis on clinically relevant issues. Presentations by expert faculty will focus on educational content that benefits all attendees, whether you are a practicing pulmonologist, pathologist, radiologist, or a resident preparing for the pulmonary board examination.

On-site, the Lung Pathology course participants will receive a black and white slidebook, as well as a CD-ROM with the slides projected in color. In addition, a link will be sent via e-mail to all participants a week prior to the conference. This link will contain the faculty slide presentations in color for your own printing.

Learning objectives:

- Recognize a pattern-based approach to the diagnosis of diffuse lung disease, including the idiopathic interstitial pneumonias, pneumoconioses, and vasculitides.
- Distinguish between common and uncommon tumors of the lung and pleura, including lymphoproliferative lesions.
- Cite the main pathologic changes that affect transplanted lungs.
- Acquire information about the pathology of pulmonary infections and the array of molecular diagnostic tests useful for diagnosis.
- Explain the approach to the interpretation of lung specimens obtained by transbronchial biopsy.

a complete study plan

Recognizing the high regard practicing physicians place on specialty certification and maintenance of certification, the ACCP offers a variety of courses and products to cover all facets of a thorough board study plan.

- Premier review courses, featuring an exam-focused curriculum, to offer you the most relevant board preparation available.
 - ACCP Critical Care Medicine Board Review 2009: August 21-25
- One-day review courses scheduled closer to exam dates, so you can put the finishing touches on your review.
 - Critical Care Medicine Mini-Board Preparation Course at CHEST 2009 (scheduled for November 1)
 - Critical Care Medicine Literature Review at CHEST 2009 (scheduled for October 31)
- Self-study materials, so you can review at your convenience.
 - ACCP Critical Care Medicine Board Review 2009 Syllabus
 - ACCP Critical Care Board Review Course 2008 Syllabus
 - ACCP-SEEK: Critical Care Medicine, Volume XVIII
 - Best of PCCU: Critical Care, 2nd Edition

ACCP Member (Physician and/or Doctoral)	\$860	\$910	\$960
Nonmember (Physician and/or Doctoral)	\$1,025	\$1,075	\$1,125
ACCP Affiliate Member	\$505	\$555	\$605
Physician-in-Training (verification required)	\$665	\$715	\$765
ACCP Allied Health Member	\$505	\$555	\$605
Allied Health Nonmember (Nonphysician/Nondoctoral/ Nonstudent)	\$665	\$715	\$765

Your tuition fee includes attendance at all general and tutorial sessions at the ACCP Critical Care Medicine Board Review 2009. The fee also covers a course syllabus in book format and on CD-ROM, a slide presentation book, continental breakfasts, refreshments during daily breaks, and an evening reception to network with colleagues and meet faculty members.

Register online for two board review courses and receive 15% off the combined registration fee. This is an online offer only.

ACCP EDUCATION MISSION

To develop educational delivery systems for chest, critical care, and sleep physicians that facilitate lifelong learning, optimize clinical care, and meet the Education Committee goals.

DESIGNATION STATEMENTS

ACCP Critical Care Medicine Board Review 2009

The ACCP designates this educational activity for a maximum of 36.5 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Hours by Other Organizations

The ACCP Critical Care Medicine Board Review 2009 is a designated activity for up to 42.5 Continuing Education Recognition Points (CERPs) of category A under provider #00011747 of the American Association of Critical-Care Nurses.

American Board of Internal Medicine: Critical Care Medicine and Pulmonary Disease SEP Program Module

The ACCP designates this educational activity for a maximum of 4 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Mechanical Ventilation

The ACCP designates this educational activity for a maximum of 4 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Lung Pathology

The ACCP designates this educational activity for a maximum of 4 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

** The CME credit hours listed above are subject to change. Final CME credit hours will be provided on-site.*

ACCREDITATION STATEMENT

The ACCP is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

DISCLOSURE STATEMENT

The ACCP remains strongly committed to providing the best available evidence-based clinical information to participants of this educational activity and requires an open disclosure of any potential conflict of interest identified by our faculty members. It is not the intent of the ACCP to eliminate all situations of potential conflict of interest, but rather to enable those who are working with the ACCP to recognize situations that may be subject to question by others. All disclosed conflicts of interest are reviewed by the educational activity course director/chair, the Education Committee, or the Conflict of Interest Review Committee to ensure that such situations are properly evaluated and, if necessary, resolved. The ACCP educational standards pertaining to conflict of interest are intended to maintain the professional autonomy of the clinical experts inherent in promoting a balanced presentation of science. Through our review process, all ACCP CME activities are ensured of independent, objective, scientifically balanced presentations of information. Disclosure of any or no relationships will be made available for all educational activities.

ACCP LEARNING CATEGORIES

ACCP Learning Categories organize ACCP education activities based on the instructional methods used, so you can determine how sessions will meet your learning style and educational goals. The six learning categories are:

ACCP Learning Category I: Lecture-Based

ACCP Learning Category II: Self-Directed

ACCP Learning Category III: Evidence-Based

ACCP Learning Category IV: Case- and Problem-Based

ACCP Learning Category V: Simulation

ACCP Learning Category VI: Quality Improvement

MAINTENANCE OF LICENSURE

The ACCP Learning Categories are further subcategorized into Maintenance of Licensure (MOL) areas, so you can document CME activities that meet state, institution, or certification requirements. The sessions in this program are classified as MOL: Scope of Practice-Critical Care Medical Education.

HOUSING ACCOMMODATIONS

JW Marriott Desert Ridge Resort & Spa
5350 E. Marriott Drive
Phoenix, AZ 85054
(800) 835-6206 or (480) 293-5000
www.jwdesertridgeresort.com

JW Marriott Desert Ridge Resort & Spa provides luxury, unparalleled service, endless recreation opportunities, and exquisite dining. This desert mountain luxury hotel near Phoenix has Arizona's largest ballroom, a tranquil and relaxing spa, outstanding restaurants, and championship golf. Upon arrival, you will be greeted with an expansive grand lobby, the sound of splashing fountains, stunning floor-to-ceiling windows, sparkling waterways, and majestic palm tree-lined pathways. Resort suites and hotel rooms include spectacular views, signature bedding, and a balcony or patio. Come experience Arizona resort grandeur in the mountains of Phoenix—where the elements meet.

LOCAL ATTRACTIONS

Those in search of a little culture will want to visit Taliesin West in nearby Scottsdale. The former winter home of Frank Lloyd Wright, this architectural masterpiece showcases the famed architect's ability to blend buildings and natural environments. Custom tours are featured throughout the week. From architecture to art, the Heard Museum's world-renowned Native American art and artifact collection is worth a visit.

Hummer and Jeep desert tours provide a fascinating way to get to know the intricacies of the plants and animals that call desert home, while having a rollicking off-road excursion.

No getaway is complete without a shopping spree. Enterprising shoppers will want to visit nearby malls and boutiques, such as Cartier and Gucci. There are more golf courses within a 10-mile radius of Desert Ridge than you can shake your nine-iron at. Horseback riding and hot-air ballooning are other popular options.

Hotel Rates and Reservations

Single/Double: \$148 per night

Room rates are subject to applicable state and local taxes (currently 12.27%) in effect at the time of check-in.

For hotel reservations, call (800) 835-6206 or (480) 293-5000 and request the discounted group rate for the American College of Chest Physicians (ACCP).

Reservation Cutoff: July 24, 2009

Reservations must be made on or before July 24. Reservation requests received after July 24 will be accepted based on space and rate availability.

Cancellation Policy:

Reservations must be canceled at least 72 hours prior to your scheduled arrival in order to avoid a room and tax charge for one night.

TRAVEL ARRANGEMENTS

You and your guests are eligible for discounts from ACCP's travel partners, United Airlines and Avis Rent A Car. To receive these discounts, book airline tickets online through ACCP's official travel agency, Association Travel Concepts; contact your own travel agent; or call the travel partner directly and reference the contract number.
